

# A REAL EYE OPENER

After years of struggle with these filthy MONSTERS, I have found several natural, unique, and absolutely SUPERIOR WEAPONS in the battle against type 2 diabetes, obesity, and both kinds of arthritis. Two of which, believe it or not, can be bought at any grocery store for mere pennies per dose. This is not msm, dms0, glucosamine, chromium, vanadium, gymnema sylvestre, or any of the usual stuff, in fact, all of them are so UNCONVENTIONAL, that I would have never have thought of them in a million years. And, there is growing evidence that one may actually PREVENT diabetes.

If you worry about what drugs like methotrexate, celecoxib, acetaminophen, etc. may be doing to your liver, then you need this information. My monthly liver enzyme test scores improved DRAMATICALLY when I began this regimen. No, not milk thistle or dandelion.

And I easily, quickly lost a HUGE amount of weight with no exercise, ephedra, or crazy, unsound, unbalanced diets which always seem to get sabotaged by HUNGER in the long run anyway. And, no RISKY gastric surgery. I have never seen a really ELDERLY fat person, have you?

FROM THE BOTTOM OF MY HEART, I AM TELLING YOU, YOU DO NOT HAVE TO BE A VICTIM, the combination of these things have done wonders for me. Send a long self-addressed, stamped envelope and five U.S. dollars to:
